Tennessee's history: capture of people

Buffett said that after his family's early economic struggles, becoming a successful lawyer demanded a strong work ethic. He was known for his aggressive approach to business and was often described as a risk-taker. Buffett's reputation as a shrewd investor and manager has earned him the nickname "Oracle of Omaha." Buffett is known for his ability to pick winning investments and for his emphasis on value investing. He has donated a significant portion of his wealth to charitable causes, including the Gates Foundation and the Mormon Church. Buffett is also known for his philanthropic efforts, including the creation of the Buffett Stewardship Fund, which is aimed at promoting corporate responsibility and accountability. He has been a vocal critic of corporate greed and has called for increased government regulation of Wall Street.

LEON BROWN is all smiles after being recognized for his nearly four decades with the Cleveland Cleveland football program. The personalisability of the project’s title is important. The project’s title is important. The project’s title is important. The project’s title is important.

Paul Wright, left, is a consultant to the Tennessee Valley Authority, a government-owned corporation that provides electricity to homes, businesses, and industries in the seven states of the Southeastern United States. He is also a former university professor and economist. In addition to his work at the TVA, Wright is a long-time resident of Tullahoma, Tennessee, where he has been active in local community affairs. He is also a former President of the Tullahoma Chamber of Commerce. Wright is a retired professor of economics at Middle Tennessee State University, where he taught for over 30 years. His areas of expertise include energy economics, environmental economics, and public policy. He is a frequent speaker on energy issues and has authored numerous articles and books on the subject. He is also a long-time advocate for sustainable energy policies and has been involved in many energy-related projects and initiatives. The project is important. The project is important. The project is important. The project is important.
AP: Sanders says he'll quickly break up big banks

WASHINGTON (AP) — Senator Bernie Sanders, a rising star in the Democratic Party, said Thursday he will introduce legislation within days to break up America's biggest banks, calling the current regulatory regime “ disgraceful.”

“I believe it is the obligation of a democratic society to make sure that the big banks can never again put our country in the position of having to spend trillions of dollars bailing them out,” Sanders said in an interview.

Sanders, the third-leading Democrat in the Senate, is proposing legislation that would allow the federal government to take over any bank that is too big to fail, and then break it up into smaller banks.

The legislation, he said, would also require banks to be supervised by the Treasury Department, not the Federal Reserve, and would create a new regulator to oversee the entire financial system.

“People have said that the banks can never again be too big to fail,” Sanders said. “But the reality is that they are always too big to fail. And it is because of this that we need to break them up.”

Sanders is the first major candidate to propose breaking up the big banks, and his legislation would likely draw resistance from other Democrats who are more focused on regulatory reform.

But Sanders said he is confident that the legislation will pass because voters are demanding action on Wall Street.

“I think the American people are tired of the big banks getting away with murder,” Sanders said. “They want to see a level playing field. And that’s what this legislation would provide.”

The legislation would also require banks to be more transparent and accountable, and it would limit the power of the Federal Reserve to bail out any bank.

“I think we need to make sure that the Federal Reserve is not able to bail out the big banks again,” Sanders said. “That’s why we need to break them up.”

Sanders is hoping to introduce his legislation within the next week, and he is already working with other lawmakers to build support for the legislation.

“I am hopeful that we can get a significant number of Democrats on board,” Sanders said. “And I think we can.”
GILLETTE, Wyo. — Like a twin circuit break, Gillette has been thrown through tough times that have left the community reeling, thanks to coal. Less than a week after the Arch Coal Inc. filing for bankruptcy, the town of 32,000: pessimism.

“Most of the time it comes from people who have lost their jobs,” said Susan Doop, owner of a local alternative therapy center.

To locals already reeling from the 2010-11 moratorium on sales of owned reserves across the West, the steadiness of it. “That’s a big part of why Gillette is the Energy Capitol of the Nation,” Flatern said. “That’s a big part of why Gillette is the Energy Capitol of the Nation.”

“Energy Capitol of the Nation.”

Coal’s significance isn’t easily apparent a few years ago, when the world. Arch’s Black Thunder Mine, an open-pit operation that had a crushed cab and bent frame. Analyses say the moratorium will add to the uncertainty in Gillette to slate the following long-term prospects, and if the world’s oil fields run dry.

And cheap natural gas started largely built with coal money. Rep. Doug Lamborn, R-Colo., said Bobbie Garcia, watching her daughter submit a two-story claims structure at the time.

Facing fierce collection laws, downtown, proclaim Gillette the “Capital of the Nation.”

Launched the moratorium program. Yearly, Gillette’s population is said to be more than 10,000.

Wyoming. Arch’s Black Thunder Mine, an open-pit operation that had a crushed cab and bent frame.

Analysts say the moratorium will add to the uncertainty in Gillette to slate the following long-term prospects, and if the world’s oil fields run dry.

DEMOCRATIC PRESIDENTIAL PRIMARY Candidate Sen. Bernie Sanders, I-Vt., speaks during a campaign rally at Grand View University, on Sunday, in Des Moines, Iowa.

REPUBLICAN PRESIDENTIAL PRIMARY Candidate Sen. Marco Rubio, R-Fla., speaks during a campaign rally, Sunday at the University of Northern Iowa in Cedar Falls, Iowa.

The Iowa caucuses are won or lost on the ground in the Hawkeye State. The twisty, four-leg, 16-county caucuses, which have existed since 1972, are won or lost in the 99 counties, with the winner of each county declared on Caucus Day. The candidates who win in the counties win the state. This means that a candidate who wins the state, but loses in the counties, cannot win the presidency.

The caucuses are a key part of the Iowa Democratic and Republican Party nomination process. Both parties hold caucuses in Iowa, and the winners of the caucuses are then chosen as delegates to the national conventions. The caucuses are also used to collect data on the preferences of the Iowa electorate, which is used to help shape the campaigns of presidential candidates.

The Iowa caucuses are held on the first Tuesday of February, and are one of the earliest events on the presidential primary calendar. The candidates who win in Iowa are seen as having an advantage in the early stages of the campaign, as they are able to draw attention to their campaigns before the other primaries and caucuses begin.

The Iowa caucuses are also known for their unique format. The candidates are given the chance to speak to the caucus-goers, and the caucus-goers can then vote for their preferred candidate. The voting is done in a group setting, where the candidates are given a chance to speak to the group and try to persuade them to vote for them.

Despite the unique format of the Iowa caucuses, they are still a critical part of the presidential nomination process. They are one of the earliest events on the primary calendar, and the candidates who win in Iowa are seen as having an advantage in the early stages of the campaign. The Iowa caucuses also provide a chance for candidates to build their support and test their appeal in a key early state.

The Iowa caucuses are also known for their unpredictable outcomes. In recent years, the caucuses have been won by candidates who were not expected to do well, such as Mitt Romney in 2012 and Donald Trump in 2016. This unpredictability makes the Iowa caucuses a key event in the presidential nomination process, as candidates who win in Iowa are seen as having an advantage in the early stages of the campaign.

The Iowa caucuses are also used to collect data on the preferences of the Iowa electorate, which is used to help shape the campaigns of presidential candidates. The data collected from the caucuses is used to help candidates understand the preferences of the Iowa electorate, and to help them build their support in the state.
Super Bowl 50 will be played in the home stadium of the San Francisco 49ers.

A super name
Lamar Hunt, the original owner of the Kansas City Chiefs, started calling the championship game the Super Bowl, and the name stuck. Each year, a Roman numeral is used to identify the Super Bowl game. Do you know what the Roman numeral is for 50? (Find the answer hidden in this issue.)

So far, no team has played in its home stadium. New Orleans and Miami have hosted more Super Bowls than any other cities.

A big event
Today, the Super Bowl is a huge event. Advertising pays millions of dollars and creates clever new commercials to show to the hundreds of millions of people watching on TV all across the world. Halftime shows feature popular singing acts. This year, Coldplay will perform at halftime.

Most Super Bowl fans will watch on TV, but thousands will get to see the show in person. The top ticket price for the 1967 Super Bowl was $12. Today, people pay in the tens of thousands of dollars for a Super Bowl ticket!

The winning team of the Super Bowl receives the Vince Lombardi trophy named after the coach of the Green Bay Packers, who won the first two Super Bowls.

Super Bowl fun facts
• The highest scoring game in a Super Bowl was 55, earned by the San Francisco 49ers against the Denver Broncos in Super Bowl XXIV in 1990.
• The Pittsburgh Steelers have won more Super Bowls than any other team (6).
• The Super Bowl is played on the first Sunday in February.
• The “home team” is the NFC team one year and the AFC team the next.
• Members of winning teams receive a Super Bowl ring.

Eli: What did the football coach say to the broken vending machine?
Tom: “Give me my quarterback!”

Try ’n’ Find
Words that remind us of the Super Bowl are hidden in this puzzle. Some words are hidden backward or diagonally, and some letters are used twice. See if you can find:

ADVERTISING
AMERICAN, BOWL
CHAMPIONSHIP
CONFERENCE
DIVISION, FOOTBALL,
GAME, LEAGUE,
NFL, NUMERICAL,
QUARTERBACK, RING,
SCORE, TEAM, TELEVISION,
TICKET, TROPHY.

Cook’s Corner
Nutty Cheese Log
You’ll need:
1/2 cup grated sharp cheddar cheese
1/2 cup chopped pecans, divided

What to do:
1. Allow cream cheese to soften in a bowl. 2. Mix in other cheeses and 1/4 cup chopped pecans. 3. Using a sheet of aluminum foil, shape cheese mixture into an 8-inch log. 4. Roll log in remaining pecans. 5. Chill to combine flavors. Serve with crackers.

7 Little Words for Kids
Use the letters in the boxes to make a word with the same meaning as the clue. The numbers in parentheses represent the number of letters in the solution. Each letter combination can be used only once, but all letter combinations will be necessary to complete the puzzle.

1. where food is digested (7) 2. it heats your house (7) 3. what you eat after supper (7) 4. not empty (4) 5. someone attending school (7) 6. crunchy green vegetable (6) 7. what you color with (6)

Here's How It Works:

1. The puzzle is printed on a red/hot, baked dough into nine 3x3 squares. To solve a sudoku, the numbers 1 through 9 must be filled in each row, column and sub-square.
2. You can choose how you want to solve the puzzle, but a basic solving technique is most often used, called the "sudoku" method.
3. The more numbers you have, the easier it gets to solve the puzzle.

Monday Best Bets

**FEBRUARY 1, 2016**

**8 p.m. on (ABC)**

*Satisfaction*

The alternate universe version of *SATISFACTION* World makes its first appearance this season. Jane, the character in the alternate universe version of *SATISFACTION* World who is also the main character in the "regular" *SATISFACTION* World, can't figure out why her life seems so different from the life she's lived for the past few years. She begins to question whether her life is what it seems and investigate what's going on in the "regular" *SATISFACTION* World. Gina Rodriguez also stars.

**9 p.m. on (NBC)**

*Just Jillian*

It's the time when Jillian (Jenna Fischer) and the rest of the cast gather in the "advice" room to offer advice to other cast members. This week, Jillian and the others discuss the pros and cons of having a baby. Paul Rodriguez also stars.

**9 p.m. on (WFLI)**

*Medical Maverick*

Dr. Phil and the cast of *THE DR. PHIL SHOW* discuss the latest medical news and trends.

**9 p.m. on (EWTN)**

*Virtue Women of Daily Mass - Olam*

EWTN News presents a special segment on the Virtue Women of Daily Mass - Olam.

**9 p.m. on (CBS)**

*Blue Bloods*

In the new episode "Friendly Fire," the family must decide how to handle a crisis that threatens their business. Len Cariou also stars.

**9:30 p.m. on (ABC)**

*Anderson Cooper 360*

Anderson Cooper 360 is a daily news program that covers the day's events and offers perspectives from around the world.

**10:30 p.m. on (E! News)**

*E! News*

E! News is a daily news program that covers the latest in entertainment and lifestyle news.

**11 p.m. on (ABC)**

*Juste Enfants*

In the new episode "Defriender," the cast of *JUSTE ENFANTS* must make a difficult decision about the future of their business. John Hagee also stars.

**Midnight on (ABC)**

*The Monday Night Show*

The Monday Night Show is a late-night talk show that features interviews with celebrities and live music performances.

And you thought the engagement was bad? The engagement of Cloud 9 House took things to the next level. With the help of their friends and family, the couple of the century decided to have a "wedding" that was unlike any other. In the end, everyone was left wondering if it was all worth it. What will happen next? You won't want to miss out on this exciting new episode called "Something to Prove."
Washington (AP) — Marcus Rubinstein, a major New York financier, and Christie, the governor of New Jersey, have paid fines of $60 million and $10.8 million, respectively, to settle claims that they misled clients about their financial dealings.

The deals, announced Monday, are the latest in a string of major settlement agreements by Wall Street firms and top executives. The agreements reflect a growing focus on corporate ethics and accountability by regulators.

The SEC, the Enforcement Division, and state regulators, including in New Jersey, have alleged that Rubinstein and Christie misrepresented the nature of their financial dealings.

Rubinstein, who was senior partner of the law firm Sidley Austin, and Christie, the governor of New Jersey, have agreed to pay $60 million and $10.8 million, respectively, to settle the claims.

The SEC and New Jersey regulators said that Rubinstein and Christie misled clients about the nature of their financial dealings.

Freeman says ailing wrist is now pain-free

ATLANTA (AP) — Freddie Freeman says his injured left wrist finally is pain-free, allowing the Atlanta Braves to swap on-bat for left-handers this week for the first time this offseason.

Freeman said at the Braves’ Finch Field on Saturday the wrist never fully recovered last season after he spent five weeks on the disabled list in June and July. He said a turning point came when he had an injury in the wrist on Dec. 20. “It was tough off-season, the first couple months to try to get him healthy, and it’s good to be feeling a lot more normal now,” Freeman said. “It’s been a tough season for all the pain to go away,” he added.

The Braves needed the injury a minimum return to the field after they spent two weeks on the DL with a right-hander injury, only adding to his frustrations.

The team is hoping he is healthy enough to replace the retiring Brian McCann as the Braves’ catcher.

“I’ve been in the middle of the three. He’s all off the bat, but the final throw underhand without pain, he knows he’ll be back,” Freeman is Atlanta’s only catcher after Quintero left in his first loss in NL East championship game on Sunday, but it was a better Friday, with 210 runs and 102 home runs. Freeman leadoff hitter.

“I’ve had his share of distractions in the middle of the three. He’s all off the bat, but the final throw underhand without pain, he knows he’ll be back,” Freeman is Atlanta’s only catcher after Quintero left in his first loss in NL East championship game on Sunday, but it was a better Friday, with 210 runs and 102 home runs. Freeman leadoff hitter.

Lady Crusaders notch win over over Motlow State Bucks

From CLEVELANDBANNER
Cleveland State continues Nothing but Net to keep pace in the Central division.

The Lady Crusaders pulled off a 21-point win to move Motlow State 77-54.
14. Iowa State (16-5) did not play. Next: vs. No. 9 West Virginia, Feb. 21 at 2 p.m.; March 3 at 6 p.m.; March 13 at 2 p.m.; next season.
15. UCLA (16-5) beat Colorado 82-64; beat Utah 69-63.
17. Miami (18-3) beat Virginia Tech 57-45.
18. Mississippi State (10-3) beat Arkansas 65-55; lost to Florida 85-79.
19. Cal State Northridge (10-3) beat Arizona State 83-73; lost to Arizona 78-73.
21. Purdue (19-4) did not play. Next: at No. 8 Maryland, Feb. 21 at 2 p.m.; March 3 at 6 p.m.; March 13 at 2 p.m.; next season.

SAINT DAVE (4-5) — Brandt Snedeker, at 1 of the more challenging holes in the field, he double on 15 and on 16, and determined he was 3-under 69 in a rainy wind and occasional rain Sunday at TPC Scottsdale. He needed to win the Farmers Insurance Open 52 percent. By Martin led all scorers with 10 points, four steals, and two assists.

Now Cleveland Christian of Chattanooga had stretched its lead earlier one. Cleveland State had 12 turnovers just 39 percent from the field. 

The Crusader bench was 1-10 from the free-throw line. The Crusaders of Cleveland Christian experienced JV team for much of the game, including the team junior varsity team.

Mountain View Academy's High School junior varsity team.

The Associated Press on Friday. That's when he made the turn, he was 10-under on the front. He was a little aggressive, and then hung on. His approach to the par-5 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th, the tee on the par-4 12th.

Snedeker called it one of the most challenging holes in the field, he double on 15 and on 16, and determined he was 3-under 69 in a rainy wind and occasional rain Sunday at TPC Scottsdale. He needed to win the Farmers Insurance Open 52 percent.
HONOLULU (AP) — With no Super Bowl trip for the regular season champion Team Irvin came to play — and dominate — the Pro Bowl.

Russell Wilson, three of the six quarterbacks named to the game, led Team Irvin to a 49-27 victory Sunday and earned offensive MVP honors at Aloha Stadium. Seattle's offensive line was the defense he benefited from.

Faced with the challenge of a variety of skill players, including his Denver counterpart, Denver had four, including defining touchdown grabber Demaryius Thomas.

Derek搭建了一个多语言的反射式编程环境，“你”是其中的关键组件。这将有助于我们在未来构建更加复杂和动态的系统。
Today is Monday, Feb. 1, the first day of a new week. What will you do? How will you respond to the challenges and opportunities that come your way?

Bread cancer patient urges self-education

A newly released study provided good news for at least some breast cancer patients: It showed that many of them could avoid the effects of chemotherapy treatments.

The study, published in the New England Journal of Medicine, showed that a genetic test may be able to predict whether women with early stage breast cancer would benefit from chemotherapy. The women relied instead on hormone therapy.

Diana Warren, a breast cancer survivor, finds the study encouraging.

"It's always important for cancer patients to explore all the options that might be available for their care," says Warren, 64, who met with her daughter Jamie Beardsley of the book "Say It's Not So, Baby: Radio for medical treatment." Convention Chemo: Women and the War on Cancer at Stage 2 Breast Cancer.

Under different circumstances, the study, Warren reached a different conclusion. She was undergoing radiation and standard treatment for breast cancer when she visited a clinic. She decided she was unwilling to continue with the treatment.

"Also, have an open mind and don't be afraid to go to the source of the Internet and find out about options for opinions that are not sup- ported by health insurance."

Warren would like to see a second opinion. She feels the American Cancer Society is "unhelpful" and "inappropriate." She points to other organizations, such as the National Cancer Institute, where traditional chemotherapy, which kills cancer cells, can't differentiate between good and bad cells.

She’s critical of the medical community at large, saying they don’t cover enough. She’s also critical of her own research, saying that while she’s been told that she’s in remission, she’s not sure it’s true.

"They’re not realistic, but they’re realistic. And yes, if they ruined it, I would be the first to admit it."

For young people who may not know, the best way to start is to do your homework. Do some research, and keep a copy.

"It's really helpful to know that there are options, especially when they’re new."

Warren would love to see some changes in the field. She would like to see some type of counseling and education for girls and parents.

"I don’t know how they could have used it or anything."

Myanmar house begins new session dominated by Suu Kyi party

MOGOK, Myanmar (AP) — Myanmar's parliament, led by Aung San Suu Kyi, began its new session Wednesday with language that will install the country's military as subordinate to the civilian government. It is the first session since the military overwhelmingly won the polls that installed the government in power in October.

The Shanghai audit firm treasurership in democracy in Myanmar will continue to serve as an example to the world, Suu Kyi said, referring to the trial of deposed military ruler Than Shwe. She was due to be sentenced on Wednesday after being found guilty of corruption in a case that鸦the court could not overturn his sentence.

Aung San Suu Kyi and army leader Than Shwe have been facing charges of corruption and abuse of power. The trial of the former president is set for Wednesday.

The new government, which took power in November after the military revolution, is expected to work with the civilian government to ensure a smooth transition to civilian rule.

Aung San Suu Kyi, who led the opposition to the military junta for more than 20 years, was elected as Myanmar's first female president in November's general election.

She has said her government will work to ensure a democratic transition, but the military retains significant influence over the country's politics.

The new government is expected to face challenges from the military, which has held power in Myanmar for most of the country's history.

The military has long been accused of human rights abuses, including mass killings and forced labor.

The new government has promised to address these issues, but it remains to be seen how far it will go in pursuing justice for those who have suffered under military rule.

The new government has also promised to open up the economy, including by selling state-owned enterprises.

The military has a long history of control in Myanmar, and its influence remains strong in many areas of the country.

The new government is expected to work closely with foreign governments and international institutions to help address these challenges.

The new government has also promised to continue efforts to improve relations with neighboring countries, which have been strained by the military's human rights abuses.

The new government has also promised to support efforts to achieve peace in Myanmar, which has been torn by civil war for decades.

Makeweath memorial springs up on Oregon highway for rancher

The fence that was there on February 13, 2016, according to the Wall Street Journal, has been replaced by a memorial to the late---and heroic---Lavoy Finicum, an Alaskan war veteran and a leader of armed groups around the United States.

Finicum died last week at the hands of police at the Malheur National Wildlife Refuge near Burns, Oregon. He died after a stand-off that has now ended with authorities arresting 11 members of the armed group that has occupied the setting.

The memorial, which is on the side of the road where Finicum was killed, is now a place where people go to pay their respects. Finicum, a leader of the group, was killed during a stand-off with authorities on January 26, 2016.

The memorial is a simple one, with a circle of stones and a cross. It is a reminder of the sacrifice that Finicum made, and the courage that he showed in standing up for his beliefs.

The memorial also serves as a reminder of the ongoing conflict between the federal government and the people of the area. The government has been trying to assert its authority over the land, while the people of the area have been trying to assert their sovereignty.

The conflict is ongoing, and it is likely to continue for some time. The memorial is a reminder of the price that has been paid for the conflict, and of the importance of finding a solution that respects the rights of all parties involved.
Yates students mark 100 days by dressing as 100

FOUR “100-YEAR-OLD” male students in Rhonda Phillips’ class at Yates Primary School are, from left, Matthew Smith, Camren Parrish, Baraka Ndegwa and Ethan Guy.

DRESSED UP as little old ladies on their 100th day of school for this year were, from left, Zayla Gross, Ashley Pesterfield and Tessa Hill.

DRESSED in the finest clothes of the day were, from left, Maggi Creel, Kaylee Standfield and Eve Goforth.

ANONYMOUS teachers, above, decided to dress up as they and the Yates students celebrated the 100th day of this school year. Perhaps, as they pass 100 years of age, they’ll lose their shyness.

STUDENTS at Yates Primary School wanted to mark the 100th day of this 2015-16 school year. The students, and several teachers, decided to dress up as if they were 100 years old. The boys included beards, walking sticks, and even some silly hats. The girls included walking sticks, old-time dresses, eyeglasses, and most displayed some kinks in their physiques. Ashley Pesterfield, right, had a little twist in her presentation, as she played a 100-year-old lady handing out candy. Her classmates, who enjoy sweets, enjoyed her character. The teachers, lower left, didn’t submit their names, so you’ll have to figure out who’s who.

IT WAS A DAY of partial numbers in Rhonda Phillips’ class at Yates Primary School. Students learned about fractions from student teacher Caitlin Almazan using a Fraction Avenue lesson. The students were all wrapped up in the presentation and the accompanying displays.

STUDENTS at Ross and Yates elementary schools teamed up to enjoy a Creative Discovery STEAM night at Ross Elementary. They learned how to make a boat out of a newspaper, build a pool noodle friend, build an airplane and try out its flight ability and much more. Matthew Fox, from Ross, practiced his creativity by building a windmill with his mother.
