Non-Motor Effects of Wearing Off & Dose Failure

Debbie Boland, DO

Debbie Boland, DO, Neurologist and Movement Disorder Specialist, completed her fellowship in Movement Disorders at Duke University. She has a passion for improving patients' quality of life. She enjoys establishing long-term relationships with her patients and educating them on ways to live a fuller life that includes a neurodegenerative disease. Prior to attending medical school, Dr. Boland practiced as a physical therapist for 10 years.

Creating Hope: Research & Coming Soon

Robert Hauser, MD, MBA

Robert Hauser, MD is a Professor of Neurology, Molecular Pharmacology, and Physiology at USF. He serves as Director of the Clinical Signature Interdisciplinary Program in Neuroscience and as Director of the USF Health Byrd Parkinson's Disease and Movement Disorders Center. He has authored or co-authored more than 200 peer-reviewed publications. His primary research is in the development of treatments for PD, tremor, dystonia, and restless legs syndrome.

Addressing Off Time –A Treatment Option

Heather Herrema, DO

Sponsored by US World Meds

Heather Herrema, DO, Neurologist and Movement Disorder Specialist, completed her fellowship in Movement Disorders at the Henry Ford Parkinson's Disease and Movement Disorder Program. She works with Suncoast Medical Research Center as a clinical investigator for several medication trials. On the 3rd Wednesday of every month, she leads a PD support group in the Central Neurology waiting room.

PMDAlliance provides opportunities to learn, live life more fully, and connect with community.
