

Since 2000, Meridien Research has been providing families in Florida opportunities to take part in clinical research trials for a variety of medical conditions. These research trials are usually offered at schools or large research institutions, but with offices in Spring Hill, St. Petersburg, Tampa, Bradenton, Maitland and Lakeland, Meridien Research provides residents access to the latest in medical research without leaving their town.

Meridien Research's Spring Hill clinic is located in a diversely populated area in central Florida, making it ideal for studies of any indication.
