

Hey, Douglas County Parents, we have an invitation for you!

Ok. Great. What is it?

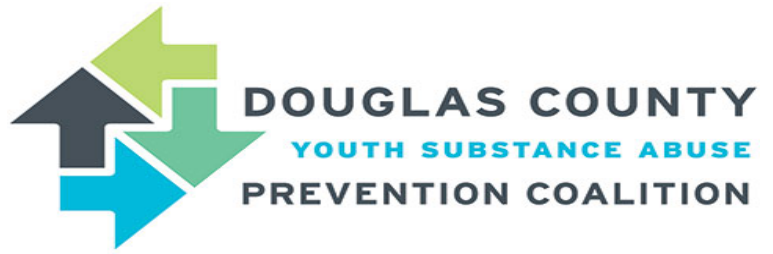

Do you wonder how to talk with your teens about alcohol, drugs and mental health and have them listen?

LOL! Totally, but I want to give them facts, not try to scare them, and have them get it.

GREAT! What if you could do this, get resources, understand mental health access, have conversations from hope health and strength, and get ideas for great summer activities for teens?

I'd say, who is this and what are you trying to sell?

NOTHING! It is **FREE!** The **Douglas County Youth Substance Abuse Coalition**, in partnership with All Health, Denver Springs, Douglas County Schools, and others are providing resources and support for you as Douglas County parents to talk with your teens about these issues. You see, National Prevention Week is in May, and we want to give you **current information** and skills that support conversations with your teens and help you understand resources we have in our community. We will have also have refreshments and an event in your area!

How to SPEAK NOW! with Your Teens, about Alcohol, Drugs and Mental Health!

When and Where:

Tuesday, May 15th
5:30 p.m. – 6:50 p.m.
Castle Pines Library Branch
360 Village Square Lane
