

IMMEDIATE WATER RESTRICTIONS

DEER CREEK WATER SYSTEM

Effective immediately, July 20, 2023 at 5:00 p.m., the Town of Annetta is implementing mandatory watering restrictions for the Deer Creek Water System to the following:

- Limit landscape watering at each service address to once per week. The allowable water days are based on the last digit of the address.

1, 3, 5, 7, 9 Wednesday between 6:00 p.m. and 8:00 a.m.

2, 4, 6, 8, 0 Sunday between 6:00 p.m. and 8:00 a.m.

(Exceptions: Foundations, azaleas, new plantings (first year) of trees and shrubs may be watered for up to 2 hours on any day by a hand-held hose or a soaker hose.)

- Reduce draining and filling of existing pools and prohibit filling of new pools. (Pools may add water to replace losses during normal use.)
- A 10% rate surcharge will be billed for all water use over 21,000 gallons per connection per month.
- Property owners are encouraged to wait until the current drought has passed before establishing new landscaping.

This will be in effect until further notification. As always, the Town of Annetta prioritizes the availability of safe, clean drinking water at reliable pressures for normal domestic use as well as adequate water storage levels to provide fire flow under emergency conditions.

If you have any questions, please contact Town Hall at (817) 441-5770 or at (682) 261-2341 after hours.

Thank you for your cooperation.
