WHAT WILL MATTER

by Michael Josephson

Ready or not, some day it will all come to an end.

There will be no more sunrises, no minutes, hours or days.

All the things you collected, whether treasured or forgotten, will pass to someone else.

Your wealth, fame and

temporal power will

shrivel to irrelevance.

It will not matter what

you owned or what

you were owed.

Your grudges,

resentments, frustrations

and jealousies will

finally disappear.

So too, your hopes,

ambitions, plans and

to-do lists will expire.

The wins and losses that

once seemed so important

will fade away.

It won't matter where you

came from or what side of the tracks you lived on at the end.

It won't matter whether you were beautiful or brilliant.

Even your gender and skin color will be irrelevant.

So what will matter? How will the value of your days be measured?

What will matter is not what you bought but what you built,

not what you got but what you gave.

What will matter is not your success but your significance.

What will matter is not what you learned but what you taught.

What will matter is every act of integrity, compassion, courage or sacrifice

that enriched, empowered or encouraged others to emulate your example.

What will matter is not your competence but your character.

What will matter is not how many people you knew,

but how many will feel a lasting loss when you're gone.

What will matter is not your memories but the memories

of those who loved you.

What will matter is how long you will be remembered, by whom and for what.

Living a life that matters doesn't happen by accident.

It's not a matter of circumstance but of choice.

Choose to live a life that matters.

Rep. Delgado Meets with NY-19 Advisory Committees, Launches District- Wide Survey on Priorities

This week, U.S. Representative Antonio Delgado (NY-19) met with his four bipartisan, locally-based advisory committees focused on Small Business, Agriculture, Veterans Affairs, and Health Care to hear from folks all across the district about their priorities in preparation for the 117th Congress. In addition to these meetings, the Congressman launched a district-wide survey to ask his constituents in all eleven counties about what they would like to see Congress focus on in the coming months. Members of the community can take the survey here.

"As I prepare to return to Washington next week, it is critically important that I hear from folks all across our district about the priorities most important to them and their families. This week, I met with my Small Business, Agriculture, Veterans Affairs and Health Care Advisory Committees to understand

what folks are experiencing on the ground in their given fields, and discuss how I can best advocate at the federal level for their needs and interests," said Rep. Delgado. "In addition to these conversations, I am launching a district-wide priorities survey to hear from our community. I encourage everyone in NY-19 to complete this survey and let me know what you would like to see Congress focus on next year. Conversations with folks here at home continue to inform my work to advocate for everyone in our district, irrespective of party affiliation."

Last year, Rep. Delgado announced the membership of his four bipartisan, locally-based in-district advisory committees focused on priorities impor-

tant to upstate New York including Small Business, Health Care, Veterans Affairs and Agriculture. The Congressman has met with these committees throughout his first term to gather input from community leaders about what they're hearing and experiencing on the ground, and how he can best advocate for their interests in Congress.

USDA Reminds Dairy Producers of Dec. 11 Deadline for 2021 Safety-Net Enrollment

The U.S. Department of Agriculture reminds dairy producers that the deadline to enroll in Dairy Margin Coverage (DMC) for calendar year 2021 is Friday, Dec. 11, 2020. USDA's Farm Service Agency (FSA) opened DMC sign-up in October to help producers manage economic risk brought on by milk price and feed cost disparities.

"2020 has been a challenging year for agricultural producers, and we don't know yet what the next year will bring," FSA Administrator Richard Fordyce. "Dairy producers should definitely consider coverage for 2021 as even the slightest drop in the margin can trigger payments."

The DMC program, created by the 2018 Farm Bill, offers reasonably priced

protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

Complete 2021 Enrollment/Evaluate Coverage Options

For DMC enrollment, producers must certify with FSA that the operation is commercially marketing milk, sign all required forms, and pay the \$100 administrative fee unless the dairy operation qualifies for a limited resource, beginning, socially disadvantaged, or military veteran farmers and ranchers waiver.

Producers interested in DMC have the option to select a \$4.00 catastrophic level of coverage with no premium fee or they can choose to buy-up coverage where the premium is based on margin triggers between \$4.50 and \$9.50 on 5 to 95 percent of established production history.

To determine the appropriate level of DMC coverage for a specific dairy operation, producers can utilize the recently updated online dairy decision tool. The decision tool is designed to demonstrate the historical performance

HOROSCOPES

ARIES - MAR 21/APR 20
Aries, creative energies may be high this week. You will have to find a way to channel them into something productive at work. Many ideas will come your way.

TAURUS - APR 21/MAY 21
Emotionally you should be feeling quite well this week, Taurus. It could be a perfect time for spending moments with a sweetheart or relaxing with the kids.

GEMINI - MAY 22/JUN 21
The week ahead certainly will not be boring, Gemini. The adventurous side of you wants to take some risks and try something that is normally off-limits. Move ahead slowly.

CANCER - JUN 22/JUL 22
It is important to let others have their moments to shine, Cancer. This week, give others their due time, and do not interrupt when someone is offering his or her opinion.

LEO - JUL 23/AUG 23
Leo, at some point this week you may find yourself involved in a project that has piqued your interest for some time. As long as it doesn't consume all of your energy, it can be productive.

VIRGO - AUG 24/SEPT 22
Use extra care with your words, Virgo. Some people may not pick up on your sense of humor. There's a possibility that people may take things personally.

LIBRA - SEPT 23/OCT 23
Libra, this week you may find yourself in the perfect position to meet the right person. This person can be a love interest or a new friend. Invite him or her in with open arms.

AQUARIUS - JAN 21/FEB 18
You may be feeling a little blue, Aquarius. Make a few minor changes to shake things up. A little change may be all you need to get over the blues.

to have your heating systems inspected and tuned up annually by a professional—inefficient heating systems can increase fuel consumption.

Seal your ductwork

Houses with forced-air heating systems use ducts to distribute conditioned air throughout the house. In a typical house, however, approximately 20% of the air that moves through

the duct system is lost due to leaks and poorly sealed connections. This can result in higher energy use. Typically, leaks can be repaired easily and inexpensively with duct tape or can be professionally sealed to more effectively eliminate leaks.

Insulate your attic

One of the most cost-effective ways to make your home more comfortable year-round is to add insulation to your attic.

Homes heated by natural gas and oil should have at least six inches (R-19) and for homes heated by electricity, you should have at least 12 inches (R-36). The US Environmental Protection Agency estimates that homeowners can save an average of 15% on heating costs by adding insulation in attics, crawl spaces and accessible basement rim joists.

Take advantage of available resources

Whether you own or rent your home, there are many resources available to manage your energy savings. Take advantage of energy saving programs, rebates and incentives to make your home more energy efficient. NYSEG has energy tips, resources and programs available for residential and business customers on its website at YourEnergyNYSEG.com.

THE HUMANE SOCIETY IS OVERUN WITH CATS.

It's Time to Think Small In Delaware County!

By Ray Pucci

One of my favorite movies this time of year is "It's a Wonderful Life". The story centers on George Bailey, who, through the intervention of an angel, is given the opportunity to see how his life has affected his entire community. In this affirmation of life, George realizes that each life is valuable and each decision can have profound consequences on the future of seemingly

Shopping in our neighborhood stores offers great value and superior service. Many of us, both personally and for our businesses, try to purchase goods and services from our neighbors whenever possible. Like George Bailey, we have the ability, particularly this time of year, to make decisions that will affect our communities.

Our decisions to buy locally during this holiday season and throughout the year have broad implications. Every dollar we

unconnected lives.

During the next few weeks we will be encouraged to "buy local" and "shop small." Small Business Saturday is Nov. 28. It's a nationally recognized day held on the Saturday after Thanksgiving and it has now become a tradition, encouraging holiday shoppers to support local brick-and-mortar businesses rather than big box brands or online-only stores.

spend in the county is one more dollar that can circulate through our economy, working to maintain and expand private-sector employment.

Imagine our communities without its small local businesses. Who will give the additional support our school athletic teams, music programs, and other school activities need and deserve? Where will our

local service groups look for members and financial support? What will be our community hub - that gathering spot for the exchange of news and stories? Pretty bleak picture, huh?

Throughout the year, we count on our Main Street to be the heart of our community. At this time of year, Main Street counts on us to remember its importance and support with our purchasing decisions.

But what exactly are the benefits of shopping small, and why should you do it on Small Business Saturday and every day? Here are some huge reasons:

1. Small businesses give back (more) to your community.

When you support a local business, you're supporting your neighborhood. What's more, on average, 67% of each purchase at local independent businesses is recirculated locally, compared to less than 14% of purchases at chain stores.

2. Small businesses make a major economic impact

More than half of jobs created in the U.S. since 1995 were created by small businesses. The more you shop at a local store, the more potential job opportunities you could help them provide.

3. Small businesses provide greater access to product diversity

Small businesses have just as much access to vendors that big box businesses do. If a small business doesn't have the products you want or need, ask them! They're also much more receptive and willing to order them for you.

4. Small businesses provide better customer service.

Small business owners strive to survive and one of the biggest advantages they have over large retailers is the ability to provide more personable, hands-on, and memorable customer service.

5. Small businesses create a sense of community

You're much more likely to get to know a small business owner in your neighborhood.

6. You're going to feel good

It is, in many ways, "a wonderful life" in Delaware County. So, when you start your holiday shopping, remember George Bailey and plan to visit that neighborhood store or seek out that local artisan or entrepreneur.

This year, take the Pledge to Spend LOCAL, Shop SMALL, Eat LOCAL, Enjoy LOCAL, and support the small businesses that sup-

port you and your community.

Your purchases will mean more when your dollars are spent closer to home and those receiving your gifts will appreciate your thoughtfulness for selecting such unique items. Your communities will appreciate your thoughtfulness too.
