240th Anniversary Battle of Lake Utsayantha: The Battle of Lake Utsayantha occurred on November 14, 1781, along the shoreline of that famous body of water. A special program takes place on the 240th anniversary of the event at 3 p.m. at the same place. During the American Revolution, native trails crisscrossed our region, stretching from the Schoharie to the Susquehanna. Used by war parties and local militia, many raids by Joseph Brant and local Loyalists led to the rich farmland of the Schoharie Valley. In November 1781, one such raid resulted in the death of Isaac Vrooman and the theft of livestock, for use by hungry Loyalist refugees and native people in western New York. The raiding party was pursued by Captain Hager, Timothy Murphy and a company of New York Continentals. After a twenty-mile pursuit and a wintry overnight encampment, the Patriots caught up with the war party who were waiting in ambush. Shots rang out, two of the pursuers were killed, Joachchim VanValkenburg and John Sackett, and at least two of the war party also died. The commander of the Continental troops faltered, and the enemy party escaped, but had to leave the livestock behind in their haste. The fallen were buried nearby. All of this action occurred at Lake Utsayantha, site of the tale of the legendary Indian Princess. The story of the battle, and that of the lake in earlier times, will be held on November 14 at 3 p.m. at the parking lot of Trinity Lutheran Church on Rte. 10, across from Taylor Road. The event is free and handicap friendly, rain or shine. Sponsored by the Stamford Historical Society. For more information, please contact Richard Sears Walling at richwalling@hotmail.com or at (607) 242-6998.

Law Enforcement Receive State Reimbursement For Reform Expenses

The Delaware County Sheriff's Office, Probation Department, District Attorney's Office, and local police departments of Colchester, Delhi, Sidney, and Walton were reimbursed for expenses related to the implementation of discovery and bail reforms which took effect on January 1, 2020. The reimbursement to the county agencies and police departments was in the amount of \$131,248. District Attorney John

Hubbard prepared and filed the grant application with the Division of Criminal Justice Services. The reimbursement was for costs incurred by the county agencies and local police departments from April 1, 2020 through March 31, 2021. Hubbard stated as a result of the recent bail and discovery legislation, increased burdens were placed on law enforcement, prosecution and pretrial services programs. The discovery reforms require law enforcement to immediately provide to the defendant materials - all documents, transcripts, lab reports, body cam video, dash cam

video and photographs. Hubbard said these materials are provided to the defendant or the defendant's attorney by the District Attorney's office in a digital format. Each agency and local department prepared for submission to the state a list of the expenses incurred, which included new computers and lap tops, increased data connectivity costs, and software. A large component of the reimbursement was for the increased administrative costs incurred, as the materials must be collected, organized and prepared by the police department. The

Delaware County Probation Department was mandated to provide pretrial services, including electronic monitoring to certain defendants, which required the purchase of the monitoring devices and software. District Attorney Hubbard stated "The reimbursements are certainly welcome, however this a small portion of the actual costs incurred by our agencies and our local police departments. This is another example of the state requiring our county agencies and local police department to do more, without providing the proper resources."

The Very Real Benefits Of Wearing Seat Belts

The importance of wearing seat belts in vehicles has resonated with drivers and passengers across the globe. According to the National Highway Traf-

fic Safety Administration, the national seat belt use rate in passenger vehicles in 2019 was 90.7 percent. And despite their simplicity, particularly when com-

pared to the various other technologies available in modern vehicles, seat belts remain an incredibly effective device against injury and even death, though

only when drivers and their passengers remember to engage them. For example, the NHTSA notes that seat belts saved an estimated 14,955 lives in 2017 alone. Unfortunately, the NHTSA also reports that 47 percent of the 37,133 people killed in motor vehicle crashes in 2017 were not wearing seat belts. Studies have indicated that front seat riders in cars who wear their seat belts can reduce their risk of fatal injury by 45 percent, while front seat riders in trucks can reduce their risk for fatal injury by 60 percent.
