## HOROSCOPES

### ARIES - MAR 21/APR 20

A strong urge to be alone arises this week, Aries. If this happens, turn off your phone and put a message that you're not to be disturbed until you're ready for some company.

### TAURUS - APR 21/MAY 21

You may turn into the party house this week when a lot of uninvited visitors show up and expect to socialize. It's a good thing you have energy to spare right now, Taurus.

### GEMINI - MAY 22/JUN 21

Errands are not going to complete themselves, Gemini. Schedule time this week to get all of your ducks in a row. You have obligations to your family and friends.

### CANCER - JUN 22/JUL 22

You intend to use the extra energy that seems to have been building in you for some time, Cancer. An impromptu sports match or a trip to the gym can burn off energy.

### LEO - JUL 23/AUG 23

This week you could receive word of an exciting challenge at work, Leo. If you have been putting in for a promotion or job change, this could be what you've waited for.

### VIRGO - AUG 24/SEPT 22

Keep in mind that you shouldn't mix money and friendship, Virgo. If a close friend wants you to work for him or her, remember the importance of this separation.

### LIBRA - SEPT 23/OCT 2

Spring cleaning is in the air, and this week you are ready to tackle your home top to bottom. Why not ask for some help from the kids or your spouse to work more quickly?

### SCORPIO - OCT 24/NOV 22

Frustrations may be high this week, Scorpio. Despite your desire to socialize, you can't seem to get out of the house. Responsibilities at home won't change for some time.

### SAGITTARIUS - NOV 23/DEC 21

Keep in mind it can take a few days for you to recover from a night of revelry, Sagittarius. Avoid overdoing it on week-nights or you may pay the price at work in the morning.

### CAPRICORN - DEC 22/JAN 20

There is a lot of work to get done around the house, Capricorn. A lack of funding has you in a holding pattern. Examine your budget to see if there's wiggle room.

### AQUARIUS - JAN 21/FEB 18

Aquarius, if you find yourself in a poor mood this week, try not to take it out on others. Simply ask for some alone time until you can work out your feelings for the better.

### PISCES - FEB 19/MAR 20

Exercise tact and diplomacy when someone asks for your honest opinion about their performance at work, Pisces. You'll get your point across.

## 3 Spring Hacks to Prep the Inside of Your Home for Warm Weather

(StatePoint) With warmer weather on the way, it's time to deal with the associated household hassles of the season. Here are three hacks that will help you create a healthy, comfortable home during the months

ahead:

### Beat the Heat

Beyond having your HVAC unit serviced and changing your air filter regularly, you can beat the heat at home with a few smart strategies. One change you can make today that will also reduce your carbon footprint is to swap out your heat-emitting incandescent light bulbs for cool LEDs. Likewise, appliances that are not in use but plugged in could be generating unnecessary warmth, so unplug when you can. Finally, use shades and blinds strategically to block out the sun and prevent a greenhouse effect indoors.

### Banish Flying Bugs

Fruit flies, gnats and flies tend to proliferate indoors in the warmer months. Not only do these creatures come with a serious ick factor, they can harm your houseplants and even put your family's health at risk by carrying germs from dirty surfaces to clean ones.

A safe and easy way to defend against buzzing invaders is to plug Zevo Bug Traps into outlets around

Free your home of buzzing invaders with easy-to-use bug traps.

your home, especially in areas where these bugs enter your home and gather, like garages, entryways, covered porches, trash cans, drain pipes and kitchens. Rather than relying on chemical insecticides, they use multi-spectrum light technology that bugs find irresistible. Once attracted, flying insects are trapped in a super-sticky adhesive backing. Each trap cartridge offers continuous defense for up to 45 days or until it's full. When you're done with a cartridge, simply throw it in the trash and slide a new one in, without ever having to touch the dead bugs. Pair these traps with Zevo home bug sprays, which are powered by essential oils, for

whole home protection. To learn more about defending your home against insects, and for trapping tips, visit zevoinsect.com.

### Master Mold

Thriving in warm wet environments, mold is something to watch out for at home, especially during spring and summer. Much more than an eyesore, mold is bad for your home's infrastructure and bad for you. Mold can cause a number of allergic reactions and can sometimes even be toxic. However, you can reduce the risk of mold forming by managing your home's humidity. Use fans and other ventilation in bathrooms and the kitchen when showering, running the dishwasher and doing other tasks that invite humidity. Test the humidity of various rooms in your home with a hygrometer and use a dehumidifier where needed. According to the EPA, the ideal indoor humidity is between 30 and 50%.

Employing warm weather hacks at home can help you maintain clean, comfortable spaces, all season long.
