Smooth Away Your Worries

Along with the many services Today's Dental Center provides, we also offer Botox and Juvéderm. As we age our skin loses its elasticity, creating lines and wrinkles that make us appear older. By updating your smile using a combination of services we offer including teeth bleaching, porcelain veneers, crowns, Botox and Juvéderm, you can regain that youthful looking smile and skin! At TDC Doctors Judd and Sarah Sherman specialize in cosmetic dentistry using a combination of modern dental treatments and facial treatments to achieve that perfect smile!

Botox and Juvéderm can erase signs of ageing and leave you feeling confident and refreshed. Botox is most widely used to reduce frown and furrow lines. Like Botox, Juvéderm is used to instantly smooth away wrinkles around the mouth and nose area. In just one treatment you will see results and there is no recovery time! Doctors Judd and Sarah Sherman are able to provide anesthesia to the treated areas before treatment which reduces the discomfort to practically nothing.

Unhappy with the look of your smile, your lip size, or those darn frown lines? Set up a consultation today and talk about your options and what solution is best for you! Help us help you get your smile back!
